**PRESIDENT'S REPORT:** Roy Mullis, [roym788@comporium.net](mailto:roym788@comporium.net), 803-360-1490

An Executive Committee meeting was called for the 27<sup>th</sup> of July to discuss several issues. One was the inconsistency concerning rule # 9 for the qualification bay. "If students are charged for the qualification, then the member must pay a fee of \$5 per student/shooter per session. However, this fee is waived if the range is used for the CWP shooting test." I spoke with a few of the instructors about this and none of them really understood what this meant. Me included. Some instructors were sending the fees and others have never sent anything. In addition, there is no standard for outside instructors as far as range use fees. To alleviate this inconsistency, the Committee decided to implement a \$5 fee for each student/ shooter per session per day. This will be for all training, not just CWP qualification. This goes into effect Oct 1, 2017 to give those instructors time to notify their students or make other changes.

The Committee was informed of recent problems concerning Steel target holders/ mounting systems. Recently we have had three instances of target mounting systems failing causing rounds to deflect improperly. One mount had been hit so many times it was worn out allowing the plate to turn to the left or right resulting in ricochets. Another was the improper anchoring of a mount allowing the plate to lean back where it was no longer deflecting the splatter down but up. The third was the use of shepherd's hooks (plant hangers). After being shot for a while the hooks would rotate, again causing ricochets. Members are expected to have substantial mounts for steel and to maintain them in good condition. If we find a mount that does not control the steel properly it will be removed from the bay.

Another discussion was the situation where members are not keeping up with the rules. For example, what was allowed 20 or 30 years ago is not allowed now because of encroaching neighbors. We discussed different ways to get all members to review the rules regularly. Ed Kelleher, past president wanted everybody to go through the briefing again and I understand there was almost a riot over that idea. Every member needs to regularly review the rules so to not violate a rule. Rules are posted everywhere on the range. There is no reason for a situation that happened twice in the last week or so to have ever taken place. I found members in the silhouette bay with targets at about 10 yds out in front of the 25 yd berm. Two were long time members shooting together that should have known better and the other was a fairly new member that hadn't been to the range in a while. Should have never happened.

Next was rule 2.4 “Down Range”. In the rule is a part that says “ All guns will be unloaded and cleared while the red light is on and in 2.5 “Cease Fire” “All guns must be made safe”. The discussion was basically how to make those two phrases the same. What is exactly safe or unloaded and cleared. The decision was to say before the red light is turned on or when cease fire is called, all guns will be unloaded and grounded. In other word unloaded and set on the bench. This is easy for the guy with the AR but harder for the guy with a tubular magazine.

Last of all and this didn’t come up in the meeting, under rule 1.8 full auto fire. Second sentence. “Bump fire, and other rapid fire attachments are considered full auto for the purpose of approved locations for use.” Has to be changed to include the new binary triggers. The new wording is “ Bump fire stocks, Binary triggers, and other rapid fire attachments are considered full auto and can only be used in the General Purpose and Plinking bay.

The monthly Light Rifle Match was held on September 3rd, with 8 shooters on this Labor Day weekend. There were 4 scoped rifle shooters; 1 Iron/Peep sights shooter' 1 Hi-Power class shooter; and 2 in the Hi-Power Prone. For the regular match, Clay Marshall was high score shooter with a 363, then Karl Kolchack with a 331.

The Prone guys shot 392-Richard Byars to Jeff Howells' 379 on the regular A-31 target. They then shot the A-51 target with Richard shooting a 183 out of 200; and Jeff with a 163.

Everyone was shooting a little lower scores than usual, even for the nice morning temps we had!!

THANKS to everyone for the help with set up & tear down!!

Light Rifle Matches are held on the first Sunday of each month at 9am. We shoot .22lr rifles at 50 yards, 40 shots for score. We shoot 3 positions; prone, sitting or kneeling, and standing all in 55 minutes, with all the sighting shots you may need.

The monthly smallbore rifle silhouette match was held at noon on Saturday the 19th of August. It was a really hot summer day. For such a hot summer day, there was a nice turn out. Dennis Eidson of the Savannah River club won the standard rifle match with a 26 while Mical took the hunter match. Brad Montgomery took B class honors.

The next smallbore rifle silhouette match will be at noon on Saturday September 16th.

On the third Saturday of each month, the smallbore rifle silhouette match begins promptly at noon. Set up starts around 10 with sight in and practice after set up is complete. The smallbore hunting rifle match usually begins at 1:30 after a short lunch break.

I am looking for a replacement match director. If you know anyone who wants to be a Pistol Silhouette match director, please have them contact me. If we don't find a replacement, 2017 will be the last of our pistol silhouette matches.

NCOWS uses rules similar to SASS Cowboy matches, but the requirements for weapons and clothing require greater accuracy and attention to period-correct details. There are 2, 3, and 4 gun classes, so anyone with a pre-1900 pistol and lever action rifle, or pistol and shotgun, can participate. The guns can be originals or reproductions, smokeless or black powder. New participants can come as they are, since we realize it takes a long time to acquire the needed clothing and accouterments. Gun carts are optional. There is no overall winner in NCOWS; each class is judged independently. There are 12 available classes.
